updated 2. 1. 2023 | published 2. 1. 2023

Summary

Helps you find the centre of a board and lets you drill a hole.

[Hobby & Makers](#) > [Tools](#)

You need a standard 608 bearing. Helps you to drill holes for 8mm dowels in the middle of a board. Works for smaller boards than 30mm, but not too small, obviously.

Infill 20%, needs support for the middle hole.
