Summary

For longer rods.

Tags: hexkey

I needed a longer hexkey to fasten a faucet to an old sink and I could not reach it with a normal wrench and the screws were very long, so I had to improvise. Can be scaled in a slicer to fit any size of nuts (need 13mm? Scale it to 130%).

Printed upright, brim is a good idea, infill was 45%, might be able to have less.
