Simple hedgehog-shaped logo intended to be placed on hedgehog huts in the garden (shelter and restaurant for example).

Nothing too complicated here. Hedgehog-shaped logo to print.

Fixing holes for countersunk screws in 3.5 x desired length depending on the thickness of the support where to install it.

Does not require specific printing instructions. It's up to you. Aesthetic piece.

I printed it with 3 perimeters and a 15% infill, 3 bottom and top solid layers.
