The photos with bellows installed show the original size bellows. The +5mm bellows maintain contact with the arm 100% of the time and move significantly more air.

## Model files

**craftsman-16721602-bellows-original.3mf**

☐ The same dimensions as the original I removed from the machine

### craftsman-16721602-bellows-5mm.3mf

☐ 5mm taller than original so that the base of the bellows never leaves the surface
