[Hobby & Makers](#) > [Automotive](#)

This is an Organizer for any cars. It should fit in the gap between the seat and the shift/handbrake.

You can store there different things like cell phone, tissues, pens and a lot more.

No further seeking of things which are dropped down.

The measurements are in mm (Millimeters) and for my car (Audi A1).

I recommend to cover it with some leather coatings.

Sipmly glue it together.
