updated 3. 11. 2022 | published 3. 11. 2022

Summary

Articulated print-in-place facehugger with bent tail, which allows MUCH LONGER tail, longer fingers, larger body etc.

Info:

- I have taken great original model from [@OneldMONstr](#) (thanks!) and had an idea how to make bigger alien facehugger which is still fully print-in-place
- bent tail & fingers allow:
 - much longer tail (tail has 41 particles, instead of 11 in original)
 - so it can be wrapped around your hand/neck
 - longer fingers
 - larger +remodelled body

Print info:

- PLA, nothing special
- **no support**
- no brim should be needed for smooth plate, but adjust for textured plate

This remix is based on

Flexi-Facehugger

by OneldMONstr

Model files

facehugger.stl

facehugger.3mf

☐ fits exactly mk3 plate
