Summary

Its a curvy vase which I think looks pretty neat. Designed to be printed in Vase mode (or spiralize outer contours).

Its a curvy vase which I think looks pretty neat. Designed to be printed in Vase mode (or spiralize outer contours). I personally love vases and I think this is a great one which looks improbable to do by hand. I've included a link to a 0.12mm gcode, but I think this looks good at all layer heights.

I'll upload a photo of this vase when I get a chance. Moving it into an exhibition soon.
