Summary

Use your bottle as a storage jar.

Tags: [adjustable](#) [jar](#) [kitchen](#) [organizer](#)

Make your own adjustable jar from PET bottle.

Just measure circumference of the bottle type it in parameters.

Next cut the bottle and slide it to the printed part.

Cut or drill bottle through the slot holes and insert slots.

You can also cut bottle on both sides and make it able to open.

I will update it soon.
