### Summary

Wire spools and brackets for bulk wire storage in a drawer.

[Hobby & Makers](#) > [Tools](#)

Tags: [spool](#) [storage](#) [wire](#)

This is a wire spool, in various widths, designed to fit over a 13mm pipe, with brackets to install into a drawer for a neat wire storage solution.

Print one of the “spool\_main” models, in the width you require. Print one “spool\_wall”, and glue it to the other side. To mount in a drawer, print one of “wire\_holder\_mount” normally, and another reflected (“mirror” in PrusaSlicer) along the long axis.

Each spool is 75mm in diameter, with a 15mm bore in the centre. The clear pipe used is Alphacool Hard Tube 13/10mm.
