## Summary

A Quick Pole Hook Design to allow bags to be placed on wall hooks high up without the need for a Ladder

[Household](#) > [Other House Equipment](#)

Tags: [hook](#) [prop](#) [storage](#) [access](#) [high](#) [dipole](#)

We needed a pole hook to allow bags to be placed on wall hooks for display/storage, without the need for a ladder.

I printed mine in a Red PETG with just a little support under the longest prong, I then pushed it on the end of a 28mm dowel I had from an old curtain rail and fixed it in place using a screw through the hole on the side.

I get that this is quite a specific thing to need, but if you have reached this far you are probably looking for something like this. 😊

I hope this is useful, and that you enjoy.

Thanks
