Highly accurate print success indicator*. Based on the latest RNG based quantum computing plastic failure prediction algorithms**

1. Print
2. Glue magnet to middle
3. Attach to extruder motor
4. ENJOY SUPER ACCURATE RESULTS!!!*

*product has not been tested in all conditions and results may vary.

**algorithms may not work on all quantum computers which may cause a percentage of outlying results.

***hashtags were recommended by Prusa website and I am not liable for their accuracy.
