This is a model of Clamps, a character on Futurama and a member of the Robot Mafia. I designed Clamps in Autodesk Fusion 360, which has started to become my preferred design software over Autodesk Inventor. As with all my Futurama robots, I used a reference photo from Futurama World's of tomorrow wiki (the wiki for the futurama video game [which includes the last official Futurama animated video]) and then just started drawing. I have not yet gotten the chance to print this, but I would recommend priming/painting of course, as well as using an X-acto knife and running along the details on Clamp's Clamps to prevent the primer from filling them up.
