### Summary

Olight S2R diffusers. Allows for a lantern-like use of the flashlight.

I like my Olight S2R rechargeable light for outdoor use. While camping, having some "lantern-like" light in your tent can be helpful. I Remixed the excellent "Olight S1R Ultralight Diffuser" by @imbrianj to be sized for my light's slightly larger diameter. It weighs in right at 4 grams. It's a tight fit, so you may want to scale it up a hair if you have issues. I printed mine in White PETG.

2023/11/20: Added low-profile diffuser for easier stowing for travel. You could also print these in different colors for different uses: Red, Orange, Yellow, Green, and White. A red diffuser would be beneficial for night time use to keep from disrupting your eye's natural night vision!
