Tags: [multicolor](#) [garden](#) [nommu](#) [vegetable](#) [plantlabel](#)
[paprika](#)

Based on [this paprika svg on Noonprojects](#), I've made a paprika sign to know where I've plant my seed in my raised garden on my balcony. Gcode is already setup as tri-color.

1st layer: Yellow / Red / Green

2nd layer: Green

3rd layer: black

If you print it, and it works for you, please rate it, like it and post a make, that would be highly appreciated!
