updated 19. 4. 2022 | published 29. 3. 2022

Summary

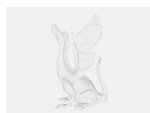

Use this to cut PTFE liners on Tenlog's standard hotends

[3D Printers](#) > [Accessories](#)

Tags: [ptfe](#) [tenlog](#) [tld3](#) [hands2](#)

After printing, simply slide a 4mm PTFE tube into the jig and cut with a hobby knife at the cross-cut.
