This is a remix of a Lego wall hook. I tightened up the studs a little so they would fit with the Lego display parts I have published previously and added 4 more studs at the bottom. Also, added connections on the bottom so that it can be added to other Lego or the oval stands I published previously. The base brick was courtesy of Perfect Printable Brick, <https://fweynschenk.github.io/ppBricks/>.

This remix is based on

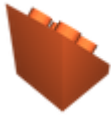

Angled Lego Wall Hook
