A coaster based on the thing from Genshin!

I know this is from Genshin but I have never played the game so I'm not exactly sure what it does (I was asked to make this).

I designed it pretty large (100mm diameter), and all the parts are easy to remove for cleaning.

Just print at 0.20 to get it done quicker. I used layer changes for the base as well as to achieve the light green effect for the faded inlay:

For the base I changed from light blue to mint green.

For the inlay I printed one layer of white over green.

Hope you like it! :D
