This is for holding your fountain pens (or any pens really) and your ink bottles.

I have included a step file and a f3d file. You can use either if you would like to add custom text onto it like I have. Otherwise the stl is just blank with no text.

There is a some unused space near the large hole where the bigger ink bottle is and I may update this eventually to make some of that space more usable. If you have any suggestions just let me know.
