These files are for **Personal Use Only**. If you would like a **Commercial License** to sell prints made from these designs, please join me on **Patreon**: <https://www.patreon.com/kazitoad>

This is a collection of small screw-top parts containers. There are three patterns for the jars and one universal cap that fits them all.

The parts print and fit together easily. All of the parts should be printed flat-side down without support. Feel free to use a large nozzle and layer thickness (0.8 & 0.3mm) or finer if you want more detail.
