Summary

inside corner 2020 extrusion case for Eleclab 7" LCD

[3D Printers](#) > [Accessories](#)

Tags: [lcdmount](#) [eleclab](#)

Case to hold a 7 inch ElecLab LCD for an inside corner on 2020 extrusion. Deep enough to hold the LCD and a raspberry pi.

I'm using it to hold the LCD and Pi in my large Ultimaker clone, running Klipper.
