This is a custom holder for these Cuisinart 12 cup accessories:

- FP-12RSD reversible shredding disk (180 mm diameter, 10 mm depth)
- FP-12ASD adjustable slicing disk (180 mm diameter, 22 mm depth)
- FP-12STM stem adaptor (2) (18 mm diameter, 73 mm depth)

Each compartment features a drainage hole just in case the part isn't fully dry. There are two centreline screw mounts sized for a #6 wood screw, 50 mm apart vertically. Thanks to the flat bottom, it's also a great piece of countertop art.

The design is somewhat parameterized in OpenSCAD. Message me if you'd like a version with different dimensions (only two blade slots, though).
