Masterful Dungeons Modular Walls are designed as part of a fully modular dungeon system built for tabletop RPGs like D&D and other TTRPGs.

These walls are **separate pieces**, not integrated into floor tiles. This allows you to freely reconfigure your dungeon layouts, swap wall types, and reuse the same tiles across many different builds.

The system is built around **double-sided tiles that lock directly to each other**. Both sides of the tiles connect, allowing fast assembly and teardown while keeping everything secure during play.

Instructions for the tiles can be downloaded [HERE](#)

Key features

- Compatible with the Masterful Dungeons clip system or magnets
- Walls are separate from the bottom pieces that connect to the floor tiles.
- No glue, no permanent assembly
- Designed for repeated use and reconfiguration
- Internal cavities for magnets. Attach props to walls anywhere.

Included files

This upload includes multiple wall components, such as:

- Official variants
 - Walls
 - Wall Bottom Piece
 - Floor Connector - Stone
 - Used to close gaps that walls have created in the grid
 - Walls Collapsed
- Alternative variants
 - Wall Floor Pieces
 - Used to close gaps that walls have created in the grid
 - Walls Clipped
 - Used to connect the walls horizontally to each other
 - Wall Simulator Connectors
 - Used to connect floor tiles in builds that don't use walls
- Unofficial variants
 - Wall Thin
 - Walls Thick
 - Wall Bottom Thick

Filament

I test out a lot of different filaments for each of my specific builds, to make sure that the strength and print quality is as good as they can be. My [filament recommendations](#) can be found on my website [HERE](#).

Magnets

The tiles and this tool were designed to use 5x2mm magnets.
I buy them on Amazon as this is where I've been able to buy the most at the same time and at the best price:

[Non-Affiliate link](#)

Printing notes

- Designed for standard 0.2mm layer height
- No supports required
- Scale is matched to the the standard 1 inch TTRPG grid system

Help me expand the collection

Your support is directly tied with how much I can work on these tiles.
If you like what I do, please consider donating to me on [Patreon](#) or subscribing to my campaign [Secrets of Ke'Landor](#) which is a fully curated campaign, centered directly around these tiles.

Even just subscribing to my [TikTok](#) or [YouTube](#) channel or visiting my [website](#) can be a big help.
