Summary

A simple mount for the Peopoly Phenom line of printers that holds the bed at an incline, letting resin drip off easier.

A simple print that lets you mount your Peopoly Phenom or Phenom Prime bed at an angle, letting excess resin drip off of the surface easier.

Can print on FDM or resin. If printing FDM, use 4 perimeters.

You might have to scale this up by 10x for it to be true to size, due to a mistake I made while modeling it.
