Summary

NOZZLE book like storage with customized inserts.

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [nozzel](#) [nozzlebox](#) [nozzleholder](#) [organizer](#)

Book like multipurpose organizer.

Insert can be modified as you wish.

Book is print in place with filament change at custom layer.

I printed it:

0,4 nozzle

0,2 layer

20% infill

no supports

I will probably make something to make it snap as closed and few inserts type.

You can write to me if you have something in mind ;)
