Summary

Wife works for a brewery so I decided to model some beer hop earrings.

Modeled a small set of beer hop earrings - designed to be easily attached to earring wires like these <https://www.amazon.com/dp/B08Q35P6Q3>. These earrings are part of a series of earrings i've been designing from time to time. Check out my other designs for a [cannabis leaf](#) and my latest [pineapple earrings](#).
