Summary

Remix of Nozzle Box Lid to show Revo Colour and Size

[3D Printers](#) > [Accessories](#)

Tags: [nozzlebox](#) [e3drevo](#)

I remixed the Lid of MakeThings3D Nozzle box to match the Revo Nozzle inlay of Lichtjaeger so that I could have a reference colour code of the Revo set. You will need to make 4 copies of the ring stl in the different colours that will sit in the recesses created in the box lid. The size lettering is slightly raised so you can do a colour change so it is more readable. (I also did a colour change on the lid original letter embossing to better contrast it).

You will need the files from the other 2 prints used for the remix

<https://www.prusaprinters.org/prints/28020-nozzle-box>

<https://www.prusaprinters.org/prints/139398-revo-inlay-for-nozzle-box>

Note I did print this with a 0.25mm nozzle for better detail but it should be OK with a 0.40mm

Many thanks to the original print authors
