Remix of tibrol's very nice 'Fantasy Playing Card Box', <https://www.thingiverse.com/thing:2749460> I scaled the box up to playing card size (an overly generous 63mm x 88mm), and made the box deeper, I also replaced the latches on the side with 10mm x 1.74mm press in magnets to create a strong latch.

I use it for custom made D&D monster cards, but it's also appropriate for Magic and other playing card size decks.

Update- Added a v2. The original is just a bit short for laminated cardds, so I bumped the height another 5-6mm.

Update- Shaved a 1mm off the top and bottom of the box. Uses slightly less plastic and keeps my OCD at bay. If you have v2, don't bother downloading this one.
