Flying PC/NPC indicator with platforms for 28mm sized D&D/Pathfinder/RPG. The indicator is 2" tall and marked from 10-100ft in 5 ft increments using a small rubber band. Optional 2- and 4-inch platforms are designed to support larger minis and provide better stability, and are connected by 10mm x 2mm magnets

I've also included one without the magnet mounts.

Prints without any supports.
