Thanks Coldblast for the base model made in Miku Mimu Dance, modified to make it 3d printable to make your own Bowsette amiibo!

Sorry for the print quality. I know it's terrible. First try with 60 mm height, 0.4 mm nozzle, 0.1 mm layer height and 170°C budget PLA. I should print this with an SLA printer, not an Anet A8. (I hope she forgives me)
