Tool holders that clip into the side of the JGaurora A5/A5S

I decided to remix this original design: <https://www.thingiverse.com/thing:2953883>

I improved the design adding one edge more to the other side of the clip, so the whole piece holds much stronger to the printer.

Also, I design one variant for my scraper.

I'm going to add the basic clip in order that you can customize with your own designs.

Please, share a photo if you decide to print them.

## Print Settings

### Printer:

JGAurora A5

### Rafts:

No
