Summary

Small spoon for flour, sugar, coffee, or even laundry powder.

[Household](#) > [Kitchen](#)

Tags: [kitchen](#) [household](#) [spoon](#) [kitchentool](#)

This is my first 3D print design, a small spoon for flour, sugar, coffee, or even laundry powder. It is very simple, and so far it has been working well.

Printing:

- PLA / ASA worked well
- Support needed for a better print (using tree-structure support to save material)
