There's 2 STL versions attached with different sizes, also a Blend file in case you want to make an edit.

#### Print Settings

Rafts: No

Supports: No

Resolution: 0.2

Infill: 5%

Filament material: PLA

Notes:

Blend file is configured in milimeters and has all parts as separate objects to be easier to edit.

The scale inside the blend file is set at 400mm, so after editing it you should scale it to your needs.

Also to export as an STL at the correct scale you should do it at scale 1000 on the export STL settings.
