Paper Roll Storage, simply slot the caps on and you have a storage container! If you print the Coin_Cap.stl model, you make a small coin bank. Print 2 blanks for a storage container or 1 blank cap and 1 coin cap for the coin bank. Photo above shows coin bank model.

Each cap takes ~30 min to print

2 Caps = 1h to print

Print in PLA, PETG, ABS, whatever you like!

fits best on toilet paper roll tubes with an inner diameter of 42mm thicker tubes work really well.
