This handle fits exactly into the pipe of a Bosch vacuum cleaner. The other side of the handle is sized like the end of the pipe, so in total, the handle is essentially an extension of the pipe.

This is the second part of my adaptor to connect the Bosch cleaner pipe to my Festool shopvac hose. See <https://www.thingiverse.com/thing:2794542> for the adaptor for the shopvac hose. The two pieces fit together exactly -- I solvent-welded them together with acetone. Alternatively, the files can be merged and then printed as a single piece.
