Variants:

USB Drive case <https://www.thingiverse.com/thing:4893795>

Ledger Nano S case <https://www.thingiverse.com/thing:4893798>

Water resistant case for micro SD. Print slowly with many shells and optionally add a bit of PTFE on the threads. The internal part should be made of TPU or some flexible material or the Micro SD cards won't fit.

The internal padding needs to be printed with 1 shell and 10% line infill

Test the water resistance before inserting anything valuable. I'm not liable for any damage

## Print Settings

### Printer Brand:

FlashForge

### Printer:

Adventurer 3

### Rafts:

No

### Supports:

No

### Resolution:

IDK

### Infill:

10

**Filament:** PolyMaker PLA / TPU

Category: Containers
