Summary

Holder for microphone arm that locks itself by tensioning the adjustable screw.

[Gadgets](#) > [Audio](#)Tags: [holder](#) [desk](#) [arm](#) [audio](#) [microphone](#)

Does your cheap microphone arm loses its strength and slowly drips down your microphone?

Yep, mine too. So I made one that locks itself by tensioning the adjustable screw.

Printed in PLA.

Holder can be pressed into the existing pin. Use hot water to ease in the pin inside.
