A compact hanger designed for organizing belts or light handbags inside a wardrobe. It holds up to 6 belts and features a freely rotating hook, allowing the hanger to turn around its axis. This makes it easy to orient it in the closet so the belts take up as little space as possible.

The rotating hook is printed in place without supports and can be turned as needed after printing. Ideal for keeping belts neatly stored, visible, and easily accessible while saving space in your wardrobe.

No supports needed. Use 3 walls.
