---

My first complex Fusion 360 design. Took me bloody hours to do, as I didn't know what I was doing. I am dead pleased with out it's turned out, though. I've printed a dozen of them, for no reason other than that it makes me happy.

## Print Settings

### Printer:

Anet AM8

### Rafts:

No

### Supports:

No

## Notes:

You need to split it in half in your slicer, print in two halves, and then glue them together. At least, that's how I did it.
