Flag pawn for board games printable without supports (2 pieces).

After print, put flag into the stand. No glue required as it is quite tight.

## Print

Print without supports. There are 2 pieces, stand and flag.

I use ironing for better look (Prusa Slicer - Print Settings->Infill->Ironing).

Less than 0.7 meter of filament used. So if you have remains of filament on the spool and you do not know what you can print from such a piece, this is for you :)
