Summary

Another bust, more likeness based than the figure

[Art & Design](#) > [Sculptures](#)

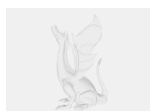

This is another Wanda sculpt. I like the Halloween episode that much, that i made this bust.

For all who ask for printsettings, i have attached screenshots for the base and the bust.

As i find out that some used my pictures to sell my Wanda figure on commercial sites, i will post only bad quality pics of my painted prints. Not that i think that would change anything, but why should i help people to sell my work as their own...

If you like my prints just let me know and post something nice under comments :-)
