Screw driver holder for larger screwdrivers. Comes with ready-to-use stl files for 6, 5, 4 and 3 screwdrivers. The pre-made stl files use a hole size of 7.2mm, hence supporting screw drivers with a diameter of up to 7mm.

Requires 2x Skadis_Universal_Hook.stl from IKEA SKADIS Collection

- [IKEA SKADIS Collection on Printables](#)
- [IKEA SKADIS Collection \(easy print / tight fit\)](#) on Thingiverse

Some of my holders I printed successfully with just 5% infill, however I recommend 10% to avoid issues.

FreeCAD design files with parameters in spreadsheet included. It allows to create holder for more screwdrivers or different dimensions (e.g. hole size). When changing parameters you will to delete Chamfer/Fillet and recreate.

My makes have been printed with a color change for the last layer.
