Stand to hold your currently playing piece of music. Holds vinyl records (7" or 12"), CDs, and cassettes. The stand has notches for each to fit in and be held at the perfect angle. The now playing sign needs to be printed separately with a layer switch for the letters (layer 13 when printing with . 2 layer height). The sign is then glued to the main stand (super glue or hot glue worked for me).

2021-08-03 UPDATE:

Changed design to fit thicker double albums better. Holds albums at a better angle in general.
