The Intellect Devourer first appeared in the AD&D Monster Manual (1977). It was later "revealed" that they were created by the Illithids.

Print Settings

Printer Brand:

Monoprice

Printer:

Maker Ultimate

Rafts:

No

Supports:

Yes

Resolution:

0.1mm

Infill:

25%

Filament: GizmoDorks PLA grey

Notes:

I printed mine at 150%, but that is clearly too large to match the size of the original.

I recommend printing at 130% if you want to match the original figure. However, since the creature is listed as "small" in most editions of the game, you may want to print it smaller.

I also used supports, but depending on your printer they may not be needed.
