Tags: [gopro](#) [gopromount](#) [balljoint](#)

A standard GoPro camera mount with 1/4" ball joint cup and a 1/2" rod mount with 1/4" ball joint ball. This is designed to work with the inexpensive 1/4" ball joint coolant hoses you can buy most anywhere.

The rod mount is designed to fit a 1/2" metal rod and uses M3 sized screws and nuts. Both can easily be changed via variables in the .scad file. If there's enough interest I might make rework it for the Customizer.
