Update: grabbed all files and included them, some of the original still have mesh issues, but print fine. Fixed parts don't have mesh issues.
For Unserfamily's and bennydesign's remixed versions:
(Unserfamily: https://www.thingiverse.com/thing:4615724)
The 'right' and 'bottom inside dice' panels for the flat remix of this dice tower have not been modified correctly.
For the 'right', you just need to mirror the 'left' panel (added a mirrored version here).

For the 'bottom inside dice' panel, I have just edited the part and included it here.

Some of the parts in the original still have mesh issues..... but they mostly print fine.
I may update this later with repaired and 'flat' parts so they are all in one spot.

Also added a repaired roof, and one with a cutout at the back for easier rolling.
