updated 28. 2. 2026 | published 28. 2. 2026

Summary

The Folding Wall Hook is a compact modern wall hook. When not in use, the hook folds down neatly against the wall :)

The design consists of **three parts**:

- **Base** – mounted to the wall using screws
- **Body** – connects to the base and allows rotation of the insert
- **Insert** – the tilting hook element

The rotating insert mechanism ensures smooth movement while maintaining stability under load.

Assembly Instructions

1. Insert the **hook insert** into the **body** through the slot and align the rotation pins until it clicks into place.
2. Mount the **base** to the wall using screws.
3. Slide the **body (with insert attached)** onto the base until it securely clicks into position.

No additional hardware is required beyond wall screws.

Features

- Foldable, space-saving design
- Modular 3-part construction
- Snap-fit assembly
- Clean and minimal appearance
- Easy installation and removal

Perfect for jackets, bags, headphones, workshop tools, or everyday use.
