4 Different Shelves

The 4 shelves fit together easily.

They are all hinged or dehiscented, so you can choose how you want to position them.

They can also be used as decorative pieces on a table or piece of furniture if you don't want to hang them on the walls.

They all have the same dimensions: 18 cm long, 23.5 cm wide, and 5.5 cm deep.

The files are in STL format, from the first to the last, with and without hinges.

Let me know if you'd like another model, and I'd be happy to design it.

More models on my profile.

If you like it and leave a like, you make me happy, you make my day perfect, and I will be eternally grateful. 😊
