Magic Payment Wand - Pay with a Little Magic

Attention please:

This is a remix of DesertCruiser's model available at:

<https://makerworld.com/models/2282000>

Turn an everyday gesture into a moment of enchantment.

This 3D-printed magic wand is designed to discreetly hold a standard credit or debit card inside the star, allowing you to tap or present the card while it looks like you are paying with pure magic.

Inspired by classic fairy-tale aesthetics and the iconic “fairy godmother” wand, the design blends playful fantasy with a clever practical function. Whether you are paying at a contactless terminal or simply surprising friends, the effect is both unexpected and delightful.

The card slides securely into the star and remains hidden during use, keeping the illusion intact while still allowing the card to function normally.

Perfect for:

- Making everyday payments more fun
- Cosplay or themed events
- Magic lovers and collectors
- A unique conversation starter

Features

- Designed to fit a **standard credit/debit card (85.6 × 54 mm)**
- Hidden card compartment inside the star
- Lightweight and comfortable to hold
- **NO IN-HOLE SUPPORTS DIFFICULT TO REMOVE**
- **NO SCREW THREADS DIFFICULT TO PRINT**
- **Fast, easy print, easy supports removal and easy to assemble**

Printing notes

- For the best visual result, use a **0.2 mm layer height**
- DO NOT ROTATE THE STAR or it could fall because of the plate movement, causing the print to fail.
- A silk or glossy filament can enhance the magical look of the wand.

Bring a little wonder into the real world — and pay like a fairy.
