Summary

This is a remix of my popular Honeycomb Shelf Bracket. Here are two new designs for you!

This is a remix of my popular **Honeycomb Shelf Bracket!**

I added a voronoi and a triangle pattern.

The shelf bracket has the dimensions of **240 by 200mm**. Take the long or short side up. You can also simply scale the shelf bracket. The holes have a diameter of **5.5mm**, the blind hole **13mm**. If the bracket is scaled down, the hole may need to be drilled. So make sure that there is enough wall thickness.

Please leave a **like** if you enjoy my design. Also feel free to **check out my other uploads.** :)

This remix is based on
