Electrical Grid Series - Power Station

Power is no small commodity in the war for freedom across the bloody wastelands of the home worlds. This is the Electrical Power Station. Guaranteed to generate all of the electrical power your wargame needs. Use for scatter terrain, on your model railroad, in a diorama, or whatever gets your motor running.

Two sizes are included within the files.

- A small area of the power turbine need supports (see images).
- Easily resized.

Designed on Tinkercad.

Enjoy!
